

# IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

## Reporting Requirement(s) Not Met for Klondike ISD

We are required to report the results of monitoring of your drinking water for specific contaminants (coliform) on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During compliance period, 11/1/2019-11/30/2019, we did not send in samples for coliform.

Our system failed to notify the state drinking water program as required by 11/30/2019. Although public health is not impacted, as our customers, you have a right to know what happened and what we did to correct the situation.

### What should I do?

There is nothing you need to do at this time. You do not need to boil your water or take other actions. **We do not have coliform in our water.**

### What is being done?

While we did not notify the state as quickly as we should have, we have sent in samples to be tested. We are no longer in violation.

For more information, please contact Steve McLaren at 806-462-7334 or 2911 CR H Lamesa, TX 79331.

*\*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses. You can do this by posting this notice in a public place or distributing copies by hand or mail.\**

This notice is being sent to you by Klondike ISD. State Water System ID#0580025
