

**LEAD & COPPER RULE
CORROSION CONTROL VIOLATION NOTICE
MANDATORY LANGUAGE – TIER III**

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Klondike ISD has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During January 1, 2023 to June 30, 2023, we did not monitor for lead and copper and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminants we did not properly test for during the last year, how often we are supposed to sample for the contaminants, how many samples we are supposed to take, how many samples we took, when samples should have been taken and the date on which follow up samples were taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were taken
Lead & Copper	Once every six months	0	1/1/23 to 6/30/23	6/30/23

What is being done?

We are working to correct the problem.

For more information, please contact the Superintendent at 806-462-7334 or 2911 CR H, Lamesa, TX 79331.

Please share this information with all other people who drink this water, especially those who may not have received this notice directly.

This notice is being sent to you by Klondike ISD. State Water System ID#:0580025.

Date distributed 9/12/2023.
