

**Revised Total Coliform Rule (RTCR) Failure to Report Monitoring Events to  
the State that are Not Related to *E. coli*-positive Sample Results –  
Template 3-5**

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

**Reporting Requirement(s) Not Met for**

**KLONDIKE ISD PWS 0580025**

We are required to report the results of monitoring of your drinking water for specific contaminants on a regular basis by DEC 2021. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During DEC 2021, we did not report the results of monitoring for total coliform.

Our system failed to notify the state drinking water program as required by **DEC 2021**. Although public health was not impacted, as our customers, you have a right to know what happened and what we did to correct the situation.

**What should I do?**

There is nothing you need to do at this time. You do not need to boil your water or take other actions

What is being done? (Corrective action): In order to return to compliance our system was required to collect a distribution sample and that was collected on 01/31/2022 and we returned to compliance.

**For more information, please contact:**

**Steve McLaren at 806-462-7332**

**Date distributed: 8/1/2022**

*\*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail. \**
